

Seattle University ACM

Sponsor Information

Seattle University's chapter of Association for Computing Machinery (ACM) is the largest computer science club on campus, with over 600 members. We at ACM deeply value the interdisciplinary nature of computer science and its ability to intersect with various fields. We aim to cultivate a community where diverse backgrounds and perspective thrive alongside collaboration and connection.

HackSU is a 24-hour event in-person event at Seattle University (901 12th Ave, Seattle, WA 98122) from January 17th to 18th. Students from any major can come and create a product that aims to solve real-world problems.

Why Sponsor HackSU?

Awareness

Sponsors will get the opportunity to increase their reputation at SeattleU, by creating a positive brand presence. Each sponsor will be featured on the HackSU website, introduced during our Opening Ceremony and can gain further exposure by providing company swag.

Talent

Seattle University is ranked Top 25% nationwide for Science & Engineering. Our students are passionate to learn beyond the classroom, with many having hands-on experience via research or internships at our local partnered companies.

Diverse Innovation

With one-third of SeattleU students being transfer students, each bring a unique and personalized experience to the university. Our diverse student body fosters an environment where innovative ideas flourish. Students are excited to collaborate together and if given new emerging technology, explore how they can make a positive impact to their community and beyond.

Sponsorship Tiers

The team at HackSU has carefully considered all materials and funds necessary for a lively hackathon event. We understand that the following tiers may not work for everyone, and we would like to accommodate for this. **Custom packages are available**, please tell us what you are able to provide at seattleuacm@gmail.com for more information.

Tier Information	Bronze \$500	Silver \$1500	Gold \$2500
